## GIRL SCOUTS START CAMPAIGN

NEW YORK, Oct. 25.—Six-ty-five thousand Girl Scouts of America started a national campaign today for associate members, volunteer women leaders and funds with which to further their work.

Herbert C. Hoover, former United States food administra- tor, is chairman of the na- tional campaign committee. Mrs. Woodrow Wilson is hon- orary president of the organi- zation.

## Wilson Spends Another Day of Quiteness

WASHINGTON, Oct. 25.— President Wilson spent a quiet day and his physicians said he continued to hold the sick-room made recently. No routine execu- tive business was laid before him. Several minor bills reached the white house from the capitol and the department sent over a number of pardon cases, to await the president's action.

The one exception to the "no work today" rule applied by Dr. Grayson was a report from the cabinet to discuss the impending coal strike.

Dr. Francis X. Dercum, the Philadelphia neurologist, made his weekly visit to the president and Dr. Grayson discussed with him the desirability of reducing the number of daily bulletins owing to the president's condition and the resulting "sameness" of the word from the sick-room. Dr. Grayson's idea that he may issue one bulletin each day in- stead of two or possibly limit them to one every other day.

Postmaster General Burleson called at the white house and asked Dr. Grayson to lay before the president some official busi- ness, but the physician did not wish to deviate from his rule that the president remain quiet.

The curtailment of bulletins on the president's condition began tonight when the usual ten o'clock announcement was omitted.

## BELGIAN PARTY ATTEND OPERA

NEW YORK, Oct. 25.—The fa- mous "Diamond Horseshoe" of the Metropolitan Opera House glittered with jewels tonight in honor of the king and queen of the Belgians. The wealth and fashion of New York packed the great auditorium to hear a special performance for the benefit of Queen Elizabeth's Hospital Fund.

The royal Belgians were given a tremendous ovation as they entered their box while the orchestra played La Brabanconne, before which every soldier stands at salute. There was a demonstration of patriotism, even more enthu- siastic, when the Star Spangled Banner was sung by Margaret Ro- main. At the close of the per- formance the Belgian national an- them was sung by Leon Rother.

No complete opera was sung but parts of two were presented. The artists included Rosa Pon- sello, Giovanni Martino, DeSugu- rola, Mabel Garrison and Heifetz. It was the only theatrical per- formance which the king and queen have attended in the United States. They have declined to go to the theater because of the ill- ness of President Wilson.

## MYSTERY ROBBERY AND MURDER SOLVED

NEW YORK, Oct. 25.—The mystery of a \$178,000 bond robbery and the murder of the broker's messenger who had them was apparently solved to- day. The police announced that \$50,000 of the money had been recovered and that five arrests had been made in connection with the murder.

Benjamin J. Wickens, the mes- senger vanished on October 4, a body found a week later at Mil- ford, Conn., was identified as his.

One Arrested in Chicago.

Chicago, Oct. 25.—James Ricco alias Hartford Johnny arrested in connection with the murder of a brokers' messenger and the theft of \$178,000 in his way back to New York in custody of detectives tonight. Local police said Ricco had a long criminal record in New York and Hartford, Conn.

## REPORTS FROM STEEL HEADS CONFUSING

Chicago, Oct. 25.—At the close of the fifth week of the steel strike today conditions in the mills near Chicago were confus- ing. Mill officials asserting that the plants were running almost normal and strike leaders claim- ing that production was crippled by the absence of skilled workers from the plants.

Reports that a number of fed- eral troops on duty at Gary, Ind., were to be withdrawn for the week shows that the strike area were denied today by Col. W. C. Mapes, commander.

The last week has been without any serious disorder in any part of the Calumet district.

## ISSUES CALL FOR EXTRA SESSION

Sacramento, Oct. 25.—Gov. W. D. Stephens today called a special session of the legislature to con- vene here Saturday, Nov. 1, for the exclusive consideration of the national woman suffrage amend- ment. The session need not be lengthy or expensive, the gov- ernor said, and ratification may be accomplished in a few hours.

## VALUE ESTATE OF COL. ROOSEVELT AT \$810,607

Affidavits Filed by  
Executors of Will  
Show.

## BOND HOLDINGS ARE LARGE

MINEOLA, N. Y., Oct. 25.— Colonel Theodore Roosevelt left an estate valued at \$810,607, ac- cording to affidavits filed here to- day with Transfer Tax Appraiser Gehrig by executors of the will.

After approximately \$34,000 has been deducted for funeral ex- penses, counsel fees and debts, the entire estate will go to the widow of the former president in trust to be distributed among their children in any proportion she may determine.

A trust fund of \$60,000 given to Colonel Roosevelt by his father to be used by Mrs. Roosevelt during her life will revert to her children after her death.

Sagamore Hill, the Roosevelt estate at Oyster Bay, where the Colonel died last January is ap- praised at \$180,500. The estate also includes corporate bonds valued at approximately \$294,000 the largest of which is \$30,000 worth of first liberty loan bonds. The bonds also include a \$1,000 subscription to the Canadian Vic- tory loan and a \$3,000 Republic of Mexico bond which is listed as worthless. Stocks owned by the Colonel are valued at approximately \$184,000.

Royalties to be derived from publications of the Colonel's books were estimated at \$7,000 while the value of \$21,537 was placed on his libraries. One of the small- est items is one of \$285 which represents the value of jewelry owned by the former president.

Included in the list of apprais- als are gifts from foreign digni- taries; trophies of the Colonel's hunting expeditions and various paintings, including one given him by the late Pope Leo XIII.

## TROTZKY ISSUES A PROCLAMATION

LONDON, Oct. 25.—(By the Associated Press.)—A Moscow wireless message contains a proclamation by Leon Trotsky, Russian Bolshevik war minister, to the people of England's par- ticipation in the anti-Bolshevik operations. It is addressed to the "Red warriors" and says in part: "On all fronts you are meeting with the hostile schemes of Eng- land; on every front you find British guns and material and troops dressed in English cloth- ing. Women and children in Ar- changel and Astrakan are being killed and mutilated by English flyers. English ships are bom- barding the coast; English gold is sowing corruption. Soldiers, commissioners, sailors! More than once your hearts have over- flowed with hatred against the predatory, deceptive, bloody, false faced English. But never forget there are two Englands; Beside the England of lucre, violence, corruption and blood thirstiness, there exists an England of mental power, noble ideals, of interna- tional solidarity. The base, dis- honest England of the stock ex- change is against us. England's tolling masses are with us.

"We firmly believe that Eng- land will rise before long and put a straight jacket on the criminals who are directing the plots against the toiling masses of Russia."

## CARDINAL MERCIER IN ST. LOUIS

St. Louis, Mo., Oct. 25.—Car- dinal Mercier in an address to- night urged that relatives of those killed in the war forgive their enemies.

"We fought four years for the right," he said, "and now we are ready to forgive. We like to for- give."

The cardinal spoke at a ban- quet in his honor after which he departed for Indianapolis.

## WRIT REFUSED

Dublin, Oct. 25.—The king's bench today refused a writ of habeas corpus to Father O'Donnell, the Tasmanian chaplain who was arrested October 18 and con- fined in the Richmond barracks.

Father O'Donnell's petitioners averred he was imprisoned illeg- ally because no cause was formu- lated.

## BANK CLEARINGS

New York, Oct. 25.—The ac- tual condition of clearing house banks and trust companies for the week shows that they hold \$23,- 955,430 reserve in excess of legal requirements. This is a decrease of \$14,603,510 from last week.

## President Wilson Defies Miners

WASHINGTON, Oct. 25.— President Wilson issued a formal statement tonight with the approval of the full member- ship of his cabinet declaring the projected strike of bitu- minous coal miners under pres- ent circumstances "not only unjustifiable, but it is unlaw- ful."

The statement called upon officers of local unions to recall orders for the strike and added: "I can do nothing less than to say that the law will be en- forced and means will be found to protect the interests of the nation in any emergency that may arise out of this unhappy business."

President's Statement.

The president's statement follows: "On Sept. 23, 1919, the con- vention of the United Mine Workers of America at Cleve- land, Ohio, adopted a proposal declaring that all contracts in the bituminous field shall be declared as having automatically expired November 1, 1919, and making various demands including a sixty per cent in- crease in wages and the adop- tion of a six hour day and a five day week; and providing that, in the event a satisfactory wage agreement should not be secured for the central com- petitive field before November 1, 1919, the national officials should be authorized and in- structed to call a general strike of all bituminous miners and mine workers throughout the United States to take effect Nov. 1, 1919.

"Pursuant to these instruc- tions, the officers of the organ- ization have issued a call to make the strike effective Nov. 1. This is one of the gravest steps ever proposed in this country affecting the economic welfare and the domestic com- fort and health of the people. It is proposed to abrogate an agreement as to wages which was made with the sanction of the United States fuel admin- istration and which was to run during the continuance of the war, but not beyond April 1, 1920. This strike is pro- posed at a time when the gov- ernment is making the most earnest effort to reduce the cost of living and has appealed with success to other classes of workers to postpone similar dis- ruptions until a reasonable oppor- tunity has been afforded for dealing with the cost of living.

"It is recognized that the strike would practically shut off the country's supply of its princi- pal fuel at a time when inter- ference with that supply is cal- culated to create a disastrous fuel famine. All interests would be affected alike by a strike of this character and its victims would be not the rich only, but the poor and needy as well—those least able to provide advance a fuel sup- ply for domestic use. It would involve the shutting down of countless industries and the throwing out of employment of a large number of workers of the country. It would involve stopping the operation of rail- ways, electric light and gas plants, street railway lines and other public utilities and the shipping to and from this coun- try of the necessities of life. It would involve the shutting aid to the countries with sup- plies which they so seriously need. The country is confront- ed with this prospect at a time when the war itself is still a fact, when the world is still in suspense as to negotiations for peace, when our troops are still being transported and when their means of transport is in urgent need of fuel.

"From whatever angle the subject may be viewed, it is apparent that such a strike in such circumstances would be the most far-reaching plan ever presented in this country to limit the facilities of produc- tion and distribution of a nec- essity of life and thus indirect- ly to restrict the production and distribution of all the necessities of life. A strike under these circumstances is not only un- justifiable, it is unlawful.

"The action proposed has ap- parently been taken without any vote upon the specific proposition by the individual members of the United Mine Workers of America throuth the United States, an almost unprecedented proceeding. I cannot believe that any right of any American worker needs for its protection the taking of this extraordinary step and I am convinced that when the time and money are considered it constitutes a fundamental at- tack which is wrong both mor- ally and legally, upon the rights of society and upon the welfare of our country. I feel con- vinced that individual members of the United Mine Workers would not vote, upon full con- sideration, in favor of such a strike under these conditions.

Government Will Take Hand

"When a movement reaches a point where it appears to involve practically the entire pro- ductive capacity of the country with respect to one of the most vital necessities of daily domes- tic and industrial life and when the movement is asserted in the circumstances I have stat- ed and at a time and in a man- ner calculated to involve the maximum of danger to the pub- lic welfare in this critical hour of our country's life, the pub- lic interest becomes the para- mount consideration.

"In these circumstances I solemnly request both the na- tional and the local officers and also the individual members of the United Mine Workers of America to recall all orders looking to a strike on Nov. 1 and to take whatever steps may be necessary to prevent any stoppage of work.

"It is time for plain speak- ing. These matters with which we now deal, touch not only the welfare of a class, but vitally concern the well being, the comfort and the life of all the country. I feel that it is my duty in the public interest to declare that any attempt to carry out the purpose of this strike and thus to paralyze the industry of the country with the consequent suffering and distress of all of our people, must be considered a grave moral and legal wrong against the government and the people of the United States. I can do nothing else than to say that the law will be enforced and the means will be found to protect the interests of the na- tion in any emergency that may arise out of this unhappy business.

Favors Arbitration.

"I express no opinion on the merits of the controversy. I have already suggested a plan by which a settlement may be reached, and I hold myself in readiness at the request of each or both sides to appoint at once a tribunal to investi- gate all the facts with a view to aiding in the earliest settle- ment of questions at issue between the coal operators and the coal miners, to the end that the just rights, not only of those inter- ests, but also of the general public may be fully protected."

## LITTLE PROGRESS IS MADE ON PEACE PACT IN SENATE

WASHINGTON, Oct. 25.—Af- ter talking all day on the Johnson amendment to the peace treaty the senate tonight seemed further away from a vote than when the day's debate started.

Leaders on both sides had been hopeful of a roll call before ad- journment but when the admin- istration managers endeavored to set a specific time to vote they found the Republican unwilling to bind themselves to action today. Monday, Tuesday or Wednesday.

Republican Leader Lodge an- nounced he was prepared to pro- pose Monday's session so as to hasten the debate.

Senator Lodge led today the fight made for the amendment against an opposition which for several days had made its defeat virtually a foregone conclusion. He argued that while the Johnson proposal would not accomplish completely the equalization of voting power in the league, it or some similar provision was nec- essary to protect American inter- ests.

The amendment was opposed as impracticable and unworkable by Senator McCumber, Republican North Dakota and by Senator Thomas, Democrat, Colorado. They both urged a reservation on the subject but Senator Borah, Republican, Idaho, argued that the situation should be met by amending the treaty.

## ALL CLOCKS ARE TURNED BACK TO THE OLD TIME

WASHINGTON, Oct. 26.—With the turning back of the clocks of the land this morning the American people again will live by normal time. For two years the clocks were moved forward one hour in the spring and moved back one hour in the fall but from now on the time pieces will remain on the old time basis as the daylight saving law was re- pealed by the present congress after a bitter fight in which Pres- ident Wilson took a hand.

The law was designed primar- ily as a war measure to increase food and war material production by offering an additional hour for daylight for workingmen. The first complaint over the new time came from the farmers who de- clared the law was working hard- ships upon them by causing ex- treme early rising. Representa- tives of the farmers opened the fight against the measure and al- though President Wilson vetoed repeal of the law, sufficient majorities in the house and senate were secured to sustain the repeal and the daylight savings law was repealed.

Railroad officers and employes were instructed to turn their watches back one hour at 2 o'clock this morning. Trains caught in terminals were re- quired to remain there until sched- uled time of departure under the new rule.

## ORGANIZED LABOR WILL RESERVE THE RIGHT TO STRIKE

Anti-Strike Legisla-  
tion Would Cause  
General Walkout

## RAILROAD BILL ASSAILED

WASHINGTON, Oct. 25.—Or- ganized Labor intends to preserve the right to strike, officials of the American Federation of Labor said today in warning that passage in the congress of the anti- strike legislation proposed in the pending railroad bill would result in an immediate general walkout over the country.

William H. Johnston, presi- dent of the International Assoc- iation of Machinists said "direct action" might be resorted to if all other means of advancing the interests of the unions failed. He referred particularly to the ef- forts of employers to shut out unions by binding their workers with individual contracts. Mr. Johnston announced that with the passage of the anti-strike legisla- tion he would order immediately a vote on a strike of the 350,- 000 members of his association and predicted that the heads of the other 112 international unions in the American Federation of Labor would take similar ac- tion. Other union officials agreed with this view.

While the legislation "against strikes now pending in congress applies solely to railroad workers it was said today that this legis- lation was one of the principal reasons while the heads of unions in the federation were to be sum- moned here for a conference in the near future.

Officials of the four railroad brotherhoods conferred today with Samuel Gompers, president and other officers of the feder- ation. It has been proposed that the cooperation of the brother- hoods be enlisted in the general fight now waged for regulation of the principle of collective bar- gaining and representation by the chosen spokesmen of labor.

Present at the conference were the representatives of the farmers' organizations—The National Board of Farm Organizations; the Federation of Milk Produc- ers; The American Society of Equity and the National Farmers' Union.

Gompers' Statement.

Mr. Gompers issued the follow- ing statement at the conclusion of the meeting: "A conference was held in the American Federation of Labor Building this afternoon in which representatives of the American Federation of Labor, the rail- way brotherhoods and the four farmers' organizations partici- pated. General discussion ensued regarding the legislation pending in congress inimicable to the rights and interests of industrial and agricultural workers.

"Further discussion ensued re- garding legislation which had been urged at the hands of con- gress in the interests of the above. It was decided that the call for the conference was made by the executive council of the American Federation of Labor should be jointly issued by the executive council of the Ameri- can Federation of Labor and the railway brotherhoods.

"It was decided that the con- ference should take place in Washington, Saturday, Dec. 13.

"The representatives of the farmers' organizations stated that they had authority from their conventions, which would be held within a month from to- day would probably appoint dele- gates.

"Charles S. Barret, president of the National Farmers Union, and one of the farmers' representa- tives in the national industrial conference here issued an appeal today to the farmers to be pre- pared to work for the measure in their present hour of need.

"The failure of the industrial conference to accomplish any con- crete thing makes necessary an offensive and defensive alliance between all constructive forces of the country against the common enemy of extremism," said Mr. Barret.

"It places the question where it was before the conference as- embled and as an administrative of the individual and collective sense, common honesty and com- mon patriotism of the people."

A plea for "sentry" also was made today by Secretary Lane, who acted as chairman of the industrial conference. In re- sponding that he had written the resolution that a new body be- lieved to carry on work for- ward the conference was called. Mr. Lane said he wanted to see a new conference of leading minds that will think in practical terms of real council of national defense against the kind of civil war of irrepressible conflict.

## FIVE POISONED AT DINNER PARTY

DETROIT, Mich., Oct. 25.— Following investigation of the death of five persons believed to have been poisoned at a dinner party a week ago to- day, Dr. Francis M. Duffield, president of the department of health, announced tonight he would on Monday order all grocers in the city to discon- tinue temporarily the sale of certain canned foodstuffs.

The victims are believed by department officials to have been poisoned by eating ripe olives.

## Investigation of Steel Strike Is Completed

WASHINGTON, Oct. 25.—In- vestigation of the steel strike was completed today by the senate labor committee with the exam- ination of witnesses from Gary, Ind. Pittsburgh and the Allen- town, Pa., plants of the Bethle- hem Steel Corporation.

Chairman Kenyon and the other members expect to begin work immediately on their report which they hope to present to the senate next week.

W. A. Rattenbury, a Gary striker, the first witness today, classed all charges of "Red" re- volutionary activities in connection with the strike as a ghost con- jured up to injure the strikers. He said the American Federation of Labor was conducting the strike in order to secure the eight hour day for the men and representa- tion before company officials in discussing shop grievances.

Sheriff William H. Haddock of Allegheny county, Pennsylvania, entered a general denial of charges of brutality made by the strikers against his deputies and the state constabulary. He placed the total number of strikers out- ing in Pennsylvania mills at 5,000 much less than other estimates given the committee.

David Williams, organizer of the machinists union representing employees of the Bethlehem com- pany said the men wanted eight hours and the right of collective bargaining.

## BAD WEATHER DELAYS FLIERS

CHICAGO, Oct. 25.—Bad weather and broken engines hav- ing halted fliers in the army's double trans-continental air race during the last two days flying conditions continued today but some progress was made by two of the six contestants who are still trying to finish. Lieutenant H. W. Sheridan made good progress toward the finish, flying today from Chicago to Buffalo, only 323 miles from Mineola, N. Y.

Lieut. D. P. Gish left Rawlins, Wyo., this morning after two days' delay and flew to within 33 miles of Sidney, Nebraska, but returned sixty miles to Cheyenne, Wyo., for repairs. He has 1603 miles ahead of him.

Lieut. R. M. Bagby and Lieut. Col. H. E. Hartney were still held up at North Platte, Neb., Lieut. R. S. Worthington at Rock Island, Ill., and Captain F. Steidle at Battle Mountain, Nev.

## MURDERER OF NUN GIVEN LIFE SENTENCE

Leland, Mich., Oct. 25.—The maximum penalty of the Mich- igan law—life imprisonment at hard labor—was imposed on Mrs. Annalsia Lypchinski, this morn- ing, following her conviction in circuit court on a charge of slay- ing Sister Mary Johns, a Felician nun, at the convent of Isadore, near here, more than twelve years ago.

The defendant took the sen- tence almost without emotion. A motion for stay of sentence, made by the defense, was refused.

## FIVE KILLED IN WRECK

Hastings, Neb., Oct. 25.—Four men and one woman were killed and two other persons injured in a grade crossing accident on the outskirts of Hastings last night when a taxicab in which they were riding was struck by a Chicago, Burlington and Quincy railroad passenger train.

## EARLY RELEASE OF JENKINS IS U. S. DEMAND OF MEXICO

Mexican Government  
Must Pay the  
Ransom.

## OIL CAMP IS ROBBED

ADD EARLY RELEASE OF O. JENKINS

WASHINGTON, Oct. 25.—Act- ing on official instructions, the American embassy at Mexico City has demanded of the Mexican gov- ernment that it effect the release of William O. Jenkins, American consular agent at Puebla who is held by bandits for \$150,000 ran- som. The American government insisted that if necessary the ran- som be paid by Mexico.

Coinciding with this announce- ment today Senator Meyers, Dem- ocrat, Montana, introduced a res- olution calling upon President Wilson to use the armed forces of the United States if necessary to bring about the release of Jen- kins and to punish his captors. Action on the resolution was de- ferred until Monday on objection by Senator Smoot, Republican, Utah, to its immediate consid- eration.

Reports reached the state de- partment today that an oil camp at Tanguico, Mexico, had been robbed recently by 250 soldiers in Carranza uniforms.

May Negotiate Release

San Francisco, Calif., Oct. 25.—A representative of the Ameri- can embassy at Mexico City has gone to Puebla, Mexico, to ne- gotiate the release of William O. Jenkins, according to a telegram received today by Joseph D. Diddle, Jenkins' uncle, from Senator Hiram W. Johnson.

## GEN. PERSHING ENDS VACATION

NEW YORK, Oct. 25.—General Pershing arrived in New York to- night from the Adirondacks on his way to Washington to resume his duties.

For nearly three weeks, Gen- eral Pershing has been the guest of Brig. Gen. E. Conner, one of his associates in France at the Brandythor Preserve of E. A. McAlpine, having motored thither from Cape Cod. He has hunted deer and fished and recovered his health sufficiently to devote con- siderable time to plans for reor- ganization of the army. The pre- sentation of these plans will be among his first duties when he reports in Washington Monday.

General Pershing was the guest at the home of friends tonight. Tomorrow he will attend a Red Cross fete at the Long Island home of Henry P. Davidson and meet Queen Elizabeth of Belgium for the first time since she arrived in the United States.

## 1920 CONVENTION FOR JACKSONVILLE

DECATUR, Ill., Oct. 25.—Judge Perry L. Piersons of Waukegan was elected president of the state conference of charities and cor- rections in the final meeting of the association here today. The 1920 convention will be held in Jacksonville, the latter part of October.

The conference tonight voted to take immediate action toward getting legislation passed by the state making desertion a felony instead of a misdemeanor. The delegates were agreed that one of the organization's greatest prob- lems is taking care of families deserted by the husband and father.

## HE HEARD PATTI

S. M. Metcalf, one of the eld- erly and highly respected citizens of Jacksonville, well remembers hearing the great Adelaide Patti four times in his early life. Where is now the building belonging to Dr. Thompson, opposite the Scott Block on West State street, once stood a frame Lutheran church, and when she was a child, some say twelve and some fourteen, Patti sang there. Mr. Metcalf heard her there and three other times during her early career.

Chicago school teachers want higher salaries. Supt. Mortenson supports their contention and says: "The city street sweeper, or almost any other common laborer in the city's employ is paid more than those to whom the city entrusts the training and education of its future citizens."

## NO FUEL SUBSTITUTES

Since the question of increased pay for railroad workers and in freight costs has not been settled but merely postponed, the rapid development of transportation by trucks has been suggested. In fact a number of cities have de-

veloped truck transportation lines so that there may not be a total city dependence on steam transportation.

While this system of first aid in connection with railroad strikes is possible, nothing of the kind can be established for like relationship in connection with the coal industry. There simply is no substitute for coal and if by a strike, that paralysis will extend to every line of industry and should it continue long enough, to every home. While this is a possibility, the average citizen is still sanguine and hopeful that if any mine shutdown comes that it will not be for long duration. Fortunately the consumer who stored his coal in the summer months and profited by experience. But when the warm days come again it will be just as hard as ever to persuade the public to store fuel.

The State Fire Inspection Bureau makes some interesting recommendations for changes in Jacksonville which would reduce insurance rates. The inspectors evidently believe that the city water supply with the new system in use will be adequate.

## THE RUMANIANS LEAVE

The Christian Science Monitor gives this interesting side light on the manner in which foreigners are leaving the U. S. for their old homes.

If all the Rumanians who, it is believed, are soon to leave the United States were gathered together, it is estimated that they would constitute a city of about

100,000 inhabitants. It would be an unusual city, for most of the inhabitants would be men, and their average wealth would be about \$2,000, or sufficient to begin life comfortably in Rumania. The oddity of the imagined city indicates why so many are going back to Europe, for the Rumanian, having no family in the United States, is not readily Americanized.

## NEARLY AN AMERICAN

Cardinal Mercier, in one of his recent speeches, said: "If I should retire from my office as archbishop, if I were obliged to resign, I would not refuse to spend my last days here. Then I would become an American." Very few of the hearers of this speech knew how near the venerable prelate came to being a citizen of the United States thirty years ago.

Bishop John J. Keene, soon after the establishment of the Catholic University, in 1889, sought Dr. Mercier to become head of the school of philosophy for the university. The matter was finally referred to Pope Leo, and his holiness decided that the doctor was more needed in Belgium than in the United States.

As events proved Pope Leo in this decision anticipated history. The primate of Belgium lived to see the day when indeed he was more needed in his native land than in any other spot on the globe.—(Boston Post.)

Attorney General Palmer declares that living costs have been reduced 25 per cent thru the recent government drive. The farmer is willing to concede that his livestock and products have readily been reduced that much but he fails to find any equal reduction in any of the commodities that he buys.

It doesn't need any proof to show that the packers do business on a big scale. It does need proof to show how many different lines they dominate, and that wholesale gracers are about to be put out of business to the detriment of the public. Possibly the grocers in the past have had a trust of their own and object to intrusion.

THE OLD TIME  
ONCE MORE.

Those who have been unhappy about the daylight saving law or "Wilson's time," as it has sometimes been called, will have relief today. Government clocks were officially turned back one hour at 2 o'clock this morning. War time events which brought about daylight saving law have passed and such legislation is not likely to have any attention in congress. Meanwhile in cities where there is great enthusiasm for the daylight saving plan the remedy is at hand and the desired result may be accomplished by local legislation.

THE MENACE OF  
THE RADICAL.

It's easy enough to be worried if one looks these days at the industrial sky and sees how clouded it is. The newspaper headlines are ominous and there is nothing really assuring about the fact that a general conference of labor has been called in Washington, when the representatives of more than 100 affiliated union organizations will meet.

But after all, the only really alarming thing about the situation or the conference call is the danger that the radicals will gain further control. The benefits to labor from organization are many and all that the average

American wants is a fair deal from organized labor—a disposition to use its power with judgment and not wholly from selfish motives. It is a fact that extreme radicals have control of the miners organization that brought about the present unfortunate situation—the radicals with their rule or ruin policy.

SEES THINGS AS  
THEY ARE.

It is a very truthful saying that by no means all men in the organized labor group are fooled by the actions and attitude of the radicals. These men with vision recognize some of the underlying principles of the radicals and see that the course they are mapping out leads to destruction. Delegate Bassett from Chicago Typographical Union No. 16 voiced this view at the Peoria labor conference when he said "Instead of cementing us together, the 'one big union' men are trying to break us up."

The movement for giving credit to men who wear old patched clothes is not likely to spread very rapidly in the U. S., even if the movement is causing alarm among the tailors and clothing manufacturers in London.

American tailors say that it is just as easy to sell a \$50 or \$60 suit to a man now as it was to furnish him one for \$25 or \$35 in 1917. The higher the price the more the orders, seems to be the American rule. The descent to lower living costs is not going to come thru the promulgation of any aid organization.

Makers of men's silk neckwear report a shortage of desirable silks. A limited assortment is allotted to each dealer with no guarantee that the ties will be delivered before Feb. 15th. FRANK BYRNS' Hat Store recommends buying Christmas neckwear this week.

NO FOOTBALL GAME  
AT WHITE HALL.

Principal Hopkins of the local high school went to White Hall Saturday to referee the game between White Hall and Palmyra. White Hall protested against Grimmert, the full back of the Palmyra team. They claimed he was ineligible because he had played on the S. A. T. C. team at Millikin last year.

The rule seems to have been that only a graduate of a high school was eligible for the S. A. T. C. and if he was a graduate he is not now eligible for high school football.

Both teams stuck to their guns after the protest. Palmyra refused to play without Grimmert and White Hall refused to play if he was in the line-up. Result, no game.

INSPECTION BUREAU  
MAKES LOCAL REPORT

Lower Insurance Rates Possible in City—Various Recommendations Made in Report Just Submitted to City—Statements Based on Investigation by Experts.

The Illinois Inspection Bureau, which prepares fire insurance estimates governing the insurance rates in Illinois, has completed a report on Jacksonville conditions. It was in September of this year that engineers representing the Bureau visited Jacksonville and went thoroughly over the situation. On the basis of the investigation made by these engineers the report was compiled by Frank E. Jones, publisher of the Illinois Inspection Bureau, and a copy has been transmitted to Mayor Crabtree, along with a letter of explanation.

Mr. Jones indicates that if certain recommendations are followed that it is probable that Jacksonville can be changed in classification from seventh to sixth, and if still other recommendations are followed a classification of fifth might be secured.

While the letter does not make the statement, it is understood that a change of classification from seventh to sixth, effected by fulfilling recommendations Nos. 1, 2, 3, 4, 5, 10, 12 and 13, would mean an annual saving to the property owners of Jacksonville of approximately \$20,000. A still further saving could be effected if all the recommendations made were concurred in.

Comprehensive Report.  
It was at the suggestion of Mayor Crabtree that the Inspection Bureau sent men to the city to make the examination. The report covers ten or twelve typewritten pages and is quite comprehensive, giving a complete description of the general physical conditions of Jacksonville, the fire fighting facilities, the condition of water mains, all facts about the water supply and a review of the system followed by the city in the management of the police and fire departments. A great many other details are given and the comprehensive report considers all these things before making the recommendations for improvements which would result in the reduction of fire insurance rates. The recommendations follow:

Improvements Recommended  
Waterworks.

1. Keep complete records of location of valves and daily consumption of water.
2. Arrange for waterworks department and pumping station to receive all alarms of fire.
3. Install a new 16-inch supply main from reservoir to the public square, same should be laid along Grove or College street.
4. This recommendation is made in order for the city to receive the full benefit of the large amount of water in elevated storage. The capacity of the present 10-inch supply main is approximately 1,000 gallons per minute at 20 pounds residual pressure, and the combined capacity with the new 16-inch main will be approximately 4,500 gallons per minute.
5. When filter system is installed same should have a capacity of not less than two million gallons per day, and connections made so that fire pumps may take suction direct from impounding reservoir.
6. Construct a new fireproof electric light and pumping station with sections properly cut off. (Note this is one of the improvements under consideration by city officials.)
7. Inspect all gate valves at least once each year and keep a complete record of same.
8. Install additional gate valves so that the maximum number of feet of pipe cut out by a single break in the mercantile section will not exceed 500 feet and 900 in the residential section.
9. It is recommended that nothing smaller than 6-inch mains be laid in the future.
10. Place the entire fire department under civil service regulation.

tions, establish rules for enlistment of men by competitive examination, and provide rules for trial for insubordination.

10. Increase the numerical strength of the department to 12 men not including the chief.
11. Install an additional 800 gallon combination auto hose chemical and pumping engine with additional men to operate same.
12. Provide the following powerful stream appliances: One monitor or turret nozzle, one ladder pipe, one deluge set.
13. Provide the following minor equipment: 3 tin roof cutters, 3 hose clamps, 12 smoke masks.
14. Install a modern telegraph fire alarm system.

Ordinances.  
15. Adopt the national building code, provide for the enforcement thereof, and keep all records of building permits.

16. Prohibit the further installation of shingle roofs within the city limits.

17. Properly enforce the present ordinance of fire.

18. Enact laws regulating the storage of gasoline, construction of motion picture booths, accumulation and burning of rubbish, and prohibit the use or sale of fireworks.

There is a great deal of satisfaction in knowing that your money is invested in safe bonds.

A sound bond pays interest in periods of financial stress just as in normal times. Corporations may not pay dividends although they continue to pay interest on their bonds. The profits from a private business may decline or stop but good bonds of corporations, municipalities and governments keep on paying interest. As long as the financial structure of the world holds together, the owners of sound and properly safeguarded bonds can be well assured of the security of their principal and interest.

The Elliott State Bank has specialized for many years in the purchase and sale of carefully selected bonds.

We invite you to discuss your investment problems with us, whether the amount to be invested is a few hundred dollars or many thousands of dollars.

## PLAIN WORDS OF WISDOM AND WARNING

From the Social Service League

Once upon a time a man was satisfied by filling his days with hunting, fishing and moving from camp to camp. His nights were spent in developing his fish stories.

This early developing and inventive power of man has made possible the many conveniences of today. For instance, the talking machine, flying machine, X-ray and many other things.

1 This leads me to suggest that each man and woman stand in the X-ray of public opinion and see themselves go by ten years hence. See themselves as they watch the sheriff taking some young convicts to the penitentiary—because ten years before the citizens were too apathetic to clean up the community—keeping eleven year old boys out of pool rooms where beer was sold—out of places where obscene language was constantly used. How do you look to yourself as you go by? See another group of boys and girls going to the school for the blind because of venereal disease. 25 per cent of the blind in one State School are there as a result of venereal disease.

An ever increasing crowd of young folks go marching by for the feeble minded colony—there was so much to do in plugging party bung holes there was no time to make a plain sensible law segregating the feeble minded.

The State Hospital has continued to receive its quota—the walls of the institutions at St. Charles and Geneva have long since burst out from overcrowding. There will even be more hands to pick English walnuts than nuts to pick at the county farm.

Now all these things you will see as you are watching yourself go by in the crowd of events, because you are not doing today the thing to be done.

There was an ugly name used during the war when one failed to do what the other fellow had to do—this name is just as appropriate when used in relation to citizenship in any time or place. We are facing a foe today as great as we faced last year. Why not go over the top for decency?

What is wrong in a small community when a number of young girl mothers are anxious to give away their babies so they may be free to live a life of sin. What is wrong when a group of boys from eight to twelve years of age of respectable parentage have been doing systematic stealing from stores for the past six months. Another group are constantly playing truant loafing around pool rooms. Small white girls and negro boys guilty of unmentionable practices. Grocers selling tobacco to boys under thirteen years of age and many other things that are sickening are going on every day. The Social Worker sees them in their unfashionable garb.

covered ugliness. Will these things just naturally segregate themselves and leave your child and the future of your child clear of stain? Watch your child as you see yourself go by ten years hence. Who shall bear the blame? Truancy is the stepping stone to other vices, each grade sends the child nearer graduation days in the penitentiary. The truant has parents; the parents are a part of the town. You parents of truants look to your children. You parents who have no truants look to the cause that is making your neighbor's child a truant. There is a cause—right it.

One of the possible causes is the lack of a Special School. Another the lack of a Truancy Home. Give the community these two things and you will look better to yourself as you see yourself go by ten years hence.

Social Service League.

## DESIGNATING GRAVES OF SOLDIERS

A Work in Which all Should Have a Part And Do the Work Well.

The work of designating the last resting places of soldiers and sailors should meet with a hearty response from every source. The legislature has appropriated money to defray the cost of printing a book containing the record of the grave of every departed soldier or sailor and there are many of them. It is very unfortunate that the work has been so long delayed for it will be impossible to get the military record of so many. Of course all who enlisted in Illinois will have their record in the report of the adjutant general, but how many thousands came here from other states and passed away.

Unfortunately, too, there are several semi-private cemeteries in the county; all well enough now but in years to come what may be their fate? It is said that a short distance west of the city along the mound road a small cemetery has been obliterated. There are a few bodies in the old college hill cemetery and no one to claim them or see to their removal.

Captain Lewis says that the state will supply free of cost a headstone for the grave of each soldier, where there is no stone, if it is desired provided application be made. Capt. W. A. Kirby is the man to see regarding this. An endeavor will be made to get some persons in each precinct to attend to this matter at the earliest possible date and have the report sent in. Surely Morgan should not be behind in this important matter.

## DON'T LET YOUR GOAT BE GONE

For Its Hide Is Worth More Than Its Weight in Silver.

Goats are goats these days, so don't let anybody get yours. If you do, you will lose something that is more valuable than silver. The skin of your goat, or anybody's goat, when tanned, is actually worth more per ounce than silver.

Silver, in spite of the fact that it is worth much more than before the war, can still be had at the modern price of \$1.07 per ounce. Tanned goat skin, commonly called kid, costs the shoe manufacturer on an average of \$1 per square foot for the lightweight hides. These hides will average about four-fifths of an ounce to the square foot, which is at the rate of \$1.25 per ounce. There is considerable waste in cutting kid leather for use. The final goes into the finished shoe really costs about \$1.50 per ounce—about forty per cent more than silver.

Miss Eleanor Thompson of the Woman's College, has received from J. W. Herring, near Rosedale, California, a crate of superb grapes grown on the Herring ranch. The fruit is delicious and much prized.

A meeting of the Free Kindergarten Board will be held in Public Library Monday at three o'clock. If the work of the Free Kindergarten is to be continued members of the Board must show some interest in the cause. Please be present.

## PROOF

From Pittsburgh Chronicle-Telegraph. A student had a barrel of ale deposited in his room, contrary, of course, to rule and usage. He received a summons to appear before the president.

"Sir, I am informed that you have a barrel of ale in your room," said the latter.

"Yes, sir."

"What explanation can you make?"

"Why, the fact is, sir, my physician advises me to try a little each day as a tonic, and not wishing to go to the various places where the beverage is retailed I arranged to have a barrel in my room."

"Indeed! And have you derived any benefit from the use of it?"

"Oh, yes, sir. When the barrel was first taken to my room I could scarcely lift it. Now I can carry it easily."

## KNOX OVERWHELMED ILLINOIS COLLEGE

Knox Has Great Team and Outclassed Illinois—Blue and White Did Not Play Usual Game.

Knox College overwhelmed Illinois College at Galesburg Saturday afternoon with a score of 54 to 0. Knox has a team of veterans and it is one of the best that ever represented that school.

Coach Barry has fourteen letter men in his squad and at the opening of the game started ten of them. Bridgeford, at full back, is playing his last year and is a wonderful player, doing everything that a good football player should do.

Coach Harmon speaking of the game last night said that while Illinois did not play the football like they can, that it was a case of being outclassed in all departments of the game. The lineup:

Illinois:	Knox:
Planning	le Hamblin
Andrew	lt Campbell

**Coated Tongue What it Means**

A bad breath, coated tongue, hoarseness in the mouth, languor and debility are usual signs of the liver out of order.

Prof. H. H. Pierce says: "The liver is an organ of great importance, not only to the body, but to the mind."

We can manufacture poisons within a few hours which are deadly as a snake's venom.

The liver acts as a guard over the blood, filtering out the poisons from the general circulation.

A blockage in the intestines puts a heavy burden upon the liver.

The intestines are choked or clogged, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste.

We suffer from headache, yellow coated tongue, bad taste in the mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of Mapple, leaves of aloe and jalap, put in ready-to-use form by Doctor Pierce, nearly fifty years ago, a good for 25 cents by all druggists.

The combination sale, under the auspices of the Morgan County Breeders Association, on Wednesday, October 29th, marks an event of more than passing interest. It is a move on the part of the livestock men in this county to put Morgan County on the map for purebred livestock. The men who are consigning livestock to this sale are men of high repute and the offer of prices although the offerings are worthy the consideration of particular buyers. For once we should like to see the farmers of Morgan County show that they are a bunch of live boosters and make this sale an unqualified success, rain or shine. If you have never tried to be a booster for a project in which there was not a dollar coming your way, try in this case and endeavor to do your part in helping a bunch of public spirited men put this county on the map for good livestock.

There is really a national leader for this work, O. H. Benson, A State leader, J. H. Green. Some counties have a man who devotes his entire time to this work. In other counties the county agent gives a part of his time to that work. The men who are behind this move know that the way to interest the boy or girl in country life is to let him own something. They do not believe that the old folks ought to feed the pigs or calf and pocket the money. That mode of proceeding has driven many young people from the farm. Along with this matter of making money should go a better social life for the city worker

To obtain the best results, grind your grain. There is plenty of good evidence that proves the feeding value of ground grain. Wisconsin Agricultural Experiment Station fed dry corn to dairy cows and 18.3 per cent of it passed through the animals undigested. The Ohio Station showed by test that the average daily milk by cows during fourteen days tested 16.2 lbs. when fed on corn and cob meals against 15.7 lbs. when fed on ear corn. Kansas Experiment Station showed that 16 per cent of the whole grain passed through the animals without even being broken up. And on thousands of farms today there is a tremendous waste by feeding whole grain, all of which could be saved to the benefit of the farmers and the buying public by grinding the grain. More weight by use of less grain means public benefit. The problem of today is to make the same amount go farther—let each one try to save and then see the result. More hogs and more cattle for less cost, thereby obtaining more dollars for less grain.—Grind Right.

We carry in stock all sizes from the small hand mill to the large tractor size which will grind 100 bushel corn per hour. We are positive we can save you money.

INOIS WOMAN'S  
COLLEGE NOTES

Thursday evening, October 18th Phi Nu Society gave a party at the society hall. Ushers took guests to seats upon their arrival and orchestra began playing. Miss Louise Pletching gave three selections and a clever play, "Reform," was acted by the Misses Esther and Beulah McMurphy. At the close of the theatrical performance, the doors of the hall were opened, disclosing a cafe where refreshments were served.

The Lambda Alpha Mu Society entertained also on Saturday evening at a taffy pull in the gymnasium.

The Theta Sigma Society entertained at a leaf raking party at the home of Miss Anne Floreth, Saturday night.

The Young Women's Christian Association meeting Sunday afternoon was led by Miss Avis Crowder. The subject for the meeting was Madras College, the sister college in India, toward the support of which the college here is contributing. Reports were given about the India building at the Centenary meeting in Columbus, Ohio, by Miss Winifred Keplinger, and Miss Helen Blaisdell, both of whom were in attendance there this summer. A vocal solo was given by Miss Mona Ramsey.

The Freshman class enjoyed a party in the gymnasium Monday evening at eight o'clock. The evening was spent in games and stunts.

All Freshmen are required this year to take a one hour course in College Fundamentals which is offered from 6:30 to 7:30 Wednesday evening. It is a course planned to assist in the adjustment to new activities. This week Miss Neville lectured upon the correct method of taking notes.

The Home Economics Club held its first meeting of the year on Thursday. The subject discussed was Home Decoration.

Coleen Jane Smith attended her brother's wedding in Indianapolis, Indiana, last week. While at her home in Anderson, Indiana, Miss Smith met the French girls, Miss Ernestine Porcher and Marthe Ponsin, who attended I. W. C. last year. They are interested in their work as teachers of French in the Anderson High School and asked many questions about their friends in Jacksonville.

A Man's Hand—

You Find Strength or Weakness—  
What Does Your Grip Show?

Have you the firm, forceful power of a man whose blood is rich in iron—the kind that inspires confidence and wins success—or have you the feeble, hesitating clasp of a weakling, whose blood needs iron? Nuxated Iron builds strong, keen, red-blooded men and women.

If you are not strong or well, you owe it to yourself to start taking Nuxated Iron today and watch its strengthening, upbuilding effect. In two weeks' time see for yourself what sort of change has taken place in the grip of your hand and the amount of strength and endurance you possess.

## Social Events

**Elite Club Gave Dance Saturday Night.**  
The Elite Dancing club gave a dance in Degen's hall Saturday evening with eighty couples present. It was announced a big masquerade would be given at Knights of Columbus hall Monday evening.

**Pie Social and Entertainment.**  
A pie social and entertainment was held at the Sherman Spencer school last evening. Edna Charlton is the teacher. About seventy-five were present and \$19.55 raised.

**Social Club Frolics at Academy Hall.**  
The Illinois College Social Club had a most interesting frolic at Academy Hall Friday evening which took the form of a summer excursion to S. Sennipah (Happiness) with stopovers at Somerset Station, Rook Retreat, Domino Dell, Snap Siding, Pittsfield, etc. The travelers met together in the Jacksonville station of the I. C. S. C. R. H. where they were assisted by the only available porter (Ed Tanner) and the two Travelers' Aids (Bess Campbell and Rena Chaney) to purchase their tickets, from the very accommodating station agent (Lane Thomason) and his assistants, to check their baggage, locate their train on Track 5, etc. Never before in the history of its existence has this station been the scene of such a gay crowd of joy seekers from choroid girls to old ladies with bird cages, suffragettes and Salvation Army lassies.

Finally the brakeman (Hugh Wilson) called all aboard! everybody got on with or without tickets, the engine whistled and they were off. The S. Sennipah Special is most modern in its equipment, from the porter, who also assists at the station and manages to upset everything in his way to the flirtatious conductor (Wilson Akers), not to mention the ubiquitous newsy (Franklin Scott) with the inevitable sensational paper and his line of candies and fruits. The train was crowded to its capacity, since everybody in J. apparently had decided to take the trip; consequently it was a relief to those standing in the aisles when some people got off at Rook Retreat. Very few people went straight through to their destination but availed themselves of the various stop-over privileges. Since there was no diner on a 20-minute stop was made at Wendle Junction where all got out to get sandwiches, pumpkin pie and hot coffee. After an all too brief stay in S. Sennipah the excursionists returned to J. on the late train and may now be interviewed on the joys and advantages of such a trip over the I. C. S. C. R.

The I. C. S. C. G. will meet about once a month throughout the college year and already several interesting frolics have been planned for the future.

URGES MENTAL CLINICS  
IN PUBLIC SCHOOLS

Dr. F. P. Norbury to Make Address at Illinois State Conference of Charities and Corrections in Decatur—Other Notable Speakers on Program.

Decatur, Ill., Oct. 24.—Social responsibility facing the community and the state will be squarely presented in numerous addresses and discussions at the Illinois state conference of charities and corrections which opened here for a three-days' session today.

Among the subjects to be dealt with are rural social service, responsibilities toward the child of unfortunate heredity or environment, irresponsible parenthood, mental hygiene, juvenile correction, and mental clinics for schools.

Speakers include Jane Addams of Hull House, Dr. Graham Taylor of the Commons, Chicago; A. L. Bowen, superintendent of charities and corrections; Miss Annie Hinrichsen, executive secretary of the state welfare commission; Dr. Frank P. Norbury, president of the board of welfare commissioners; and others prominent in welfare work.

Dr. Norbury will appeal for mental clinics in public schools as a means of determining defects in mentality of children who are subnormal or abnormal with a view to correction.

State hospital authorities will tell what has been accomplished among the insane in Illinois in the way of cure accomplished.

Doctor Issues Warning  
and Tells How to Stop  
Tobacco Habit

New York: Dr. Connor, formerly of Johns Hopkins Hospital said: "I am often asked if I know anything to stop the tobacco habit and I always recommend Nicotol, which I have prescribed with great success. Nicotol contains no habit-forming drugs, is absolutely harmless and produces astonishing results in a very short time. The use of tobacco saps the vitality, vim, vigor and ambition of the slave who is enthralled by its seductive effects. It undermines the health and leaves the victim an easy prey to general debility, throat and lung troubles, nervousness, insomnia, heart trouble, kidney trouble, headache, tongue and lip cancer and even blindness. Physicians the world over often trace the start of the above diseases and many others to nicotine poisoning."

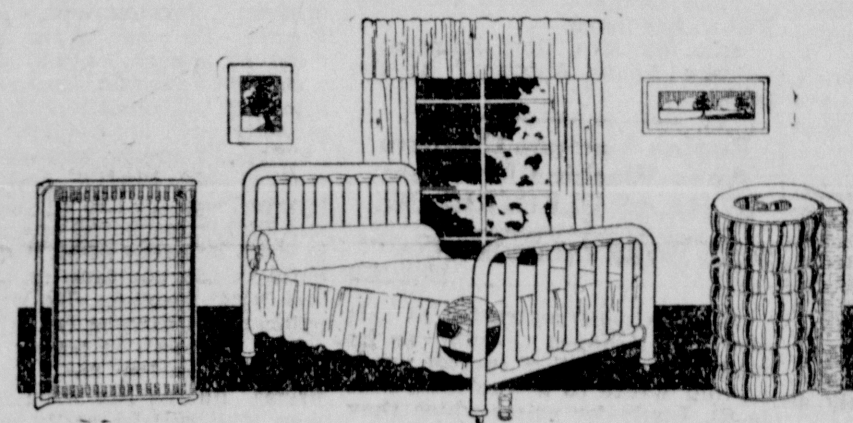

If you want to free yourself from tobacco go to any drug store and ask for Nicotol tablets. Take one tablet after each meal and in a short time you will have no desire for tobacco—the craving will have left you. With the nicotine poisoning out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including Armstrong's Drug Stores. Adv.

### HUMANE SOCIETY DOING GOOD WORK

Supper will be served at Central Christian Church next Thursday evening for worthy cause.

It may be of interest to some people who do not already know that for three years Morgan county has been supporting a very worthy charity, the Morgan County Humane Society. It maintains a humane officer with full police power and a man who with his knowledge of horses and birds is very capable in his line of work. The society desires to stop and prevent cruelty of any description to dumb animals, birds, etc., and when it is necessary to report cases of this sort Mr. John Reid will gladly attend to such matters and no names need be mentioned concerning the complainants.

For the benefit of this worthy cause the ladies of Central Christian church will serve a supper Thursday evening, Oct. 30th at 5:30 at the church and with their splendid reputation for providing and serving it will be worth the price of 75c for this tempting menu which follows:

Chicken Pie	Gravy
Mashed Potatoes	Baked Beans
Apple Sauce	Jelly
Hot Rolls	Cake
Ice Cream	Coffee

### BLUFFS MAN FINDS WATERPROOF COAT

Edward Benz Returns Article to Owner Saturday.

Edward Benz, an honest man from the vicinity of Bluffs, found that lost waterproof coat, brought it to town and declined to take any reward.

People are a little different in this world. A well known gentleman of this city lost a valuable overcoat and it was found by a man well fixed in this world's goods but he took five dollars from the owner when he returned the coat.

A person brought to the office a valuable watch for which five dollars reward was offered and tried hard to get ten.

A lady lost a roll of \$42 which was found by a small boy carrying Journals. She thought she had but \$37 but the boy returned the \$42 and then she remembered that she had received five just a short time before. The boy refused any reward but the lady insisted that he take the five dollars which he finally did only at her urgent solicitation.

A man accustomed to taking more than was good for him when saloons were here brought to the office a roll of \$65 and while he was in the office a young lady came in crying saying she had lost her month's salary. The sum was handed her and in her joy she offered the finder five but he removed his hat and politely said the sight of her happiness was ample reward. She left the place thanking him and when she was gone he asked the office for a quarter and it was given him.

## SUBSCRIPTIONS ARE COMING IN

Several Subscriptions Received Yesterday—Hon. T. J. Condon Speaks Today—Rev. J. F. Langton Will Preside.

The actual drive for subscriptions does not formally begin until Monday, several voluntary subscriptions were received to the fund Saturday. The subscriptions follow:

Jacob Cohen & Son	\$1,000
Louis Frank	150
Julius Herman	100
Henry Greenstone	100
Moe Meyer	100
A. Wehl	100
Henry Frisch	150
Wm. Daetsch	100

R. C. Reynolds has been appointed treasurer for the fund in Morgan county.

The campaign will formally open with an address by the Hon. Thomas J. Condon of Springfield at the court house this afternoon at 2:30 o'clock. However, no subscriptions will be solicited at this meeting as that work will not start until Monday.

At the meeting this afternoon the Rev. J. F. Langton, pastor of Trinity church, will preside and will make a brief address and introduce the speaker of the afternoon, Hon. Carl E. Robinson will speak at Woodson Presbyterian church this afternoon in behalf of the Jewish relief. Hugh P. Green will speak at Waverly Monday evening.

Great interest is being shown by the ministers throughout the county and all are entering heartily into the campaign to make it a success. It is probable that ministers will call attention to the drive from their pulpits, at the services today.

A prominent contractor of this city had a house to build so made out the bill of lumber needed and wrote to a wholesale firm in St. Louis for prices which they quoted him, he to pay before the lumber was shipped, to take all risks of transportation and otherwise, war tax and the like. The figures were \$1197, freight paid to Jacksonville. He then took the bill to a local house and the figures in the yard here were \$1130 and the gentleman wisely concluded to buy at home as would generally be the course of wisdom for all.

## SAMUEL BRADY DIES AT MICHIGAN HOME

Long Time Copper Mine Manager Married Jacksonville Woman—Prominent in Home City.

Many of our people will recall Miss Annie Herbel of West College avenue, with interest and respect. She, while living here, married Dr. Gambler who died not long after. Later on she married Mr. Brady, of whom the Rockland, Mich., Reporter of October 3rd, inst., had the following notice:

"Samuel Brady, superintendent of the Michigan Mining Company, died at 7 o'clock Tuesday morning at his home in this village, after a long and painful illness, death being due to cancer. "Mr. Brady was 73 years of age on Sept. 25, and in the point of years was the oldest mine superintendent in the Lake Superior copper district. He was born in Detroit, a member of one of the oldest families, which included that Colonel Brady for whom Fort Brady at the Soo was named. He was educated in the Detroit schools, at Rensselaer Polytechnic, Troy, N. Y., and at engineering schools in Germany and England. His professional experience included gold mining in the Black Hills and the management of a mining development on Isle Royale. He came to the Michigan mine as superintendent in 1899 upon the organization of that company, and continued in that capacity until his demise.

"Samuel Brady was one of the most affable, kindly and liberal hearted men in the district, and was highly respected and sincerely beloved by every man, woman and child in the community where he was best known. He was enterprising and always had the interest of the town at heart; an indefatigable worker for all enterprises during the war; in fact a man who will be sadly missed by all. His interest in history and especially the Keweenaw Historical society was almost phenomenal. He was a lover of nature, a practical gardener and florist, and a great reader of all the beautiful things in literature. His demise is a loss which cannot be estimated or made good. And the whole community mourns.

"A brief service was conducted at the home by Rev. William Poyseor, Wednesday evening and the spacious house overflowed with mourning friends. The remains were borne to the depot by a delegation of miners, and taken to Detroit for interment, accompanied by the wife and sons, and William Myers.

"Mr. Brady is survived by his wife and three sons by a former marriage; Howard, of Reno, Nev.; Hugh, of Detroit; and Lieutenant Merritt Brady, until recently in the army."

In these days of rising costs and uncertain merchandise it's worth a lot to be able to depend upon underwear. That's why we recommend Munsingwear to men and say that it is sure satisfaction and true economy to wear Munsingwear union suits. FRANK BYRNS' Hat Store.

### SECOND WARD PARENT-TEACHERS ASSN. TO MEET

The Parent-Teachers association of the second ward will hold the first meeting of the year on Thursday, Oct. 30, at 3:30 o'clock p. m. at the Lafayette school. This will be the first social meeting of the year and all parents of the second ward are cordially invited. The officers and teachers will act as hostesses. The following will be the program:

### WEST SIDE ART CLUB

The ladies of the West Side Art club were entertained at the home of Mrs. Lizzie Fountain S. Fayette on Friday afternoon. She was assisted by Mrs. Ida Weir. The program consisted of the following: Piano solo, Mrs. Stella Shannon. Remarks by Mrs. Hester Brown. Piano solo, Mrs. Wilma Critch. Mrs. Glendora Hill. Mrs. Mary Bell was a guest of the evening. After partaking of a delicious luncheon meeting adjourned to convene with Mrs. Kate Viree and Mrs. M. E. Douglas at the home of the former, 519 North Sandy street, Friday, Nov. 14.

## FIRST MEETING OF YEAR IS HELD

Domestic Science Round Table Met Saturday with Mrs. E. L. Hill—Interesting Program Given.

The first meeting of the year of the Domestic Science Round Table was held Saturday afternoon with Mrs. E. L. Hill at Jacksonville State Hospital. The session was held in amusement hall and was largely attended, more than 100 members being present.

Mrs. O. E. Tandy, the new president presided at the business session. At its close Mrs. Ben Lurton was introduced who had charge of the program for the afternoon.

Miss Anna Frances Bradley gave a violin number with Miss Ellen McCurley as accompanist. Then followed a review of the history of the Domestic Science Round Table since its inception in 1901.

Mrs. David Reid, first chairman, reviewed the years from 1901 to 1908. Mrs. Ben Lurton from 1908 to 1914 and Mrs. Clara Cobb from 1914 to the present time. The speakers in addition to giving a review of the regular work of the organization also gave some history of its activities in other forward movements that have been carried on in Jacksonville.

It was announced that the meeting of November 15 which was to have been held at the home of Mrs. E. L. Hill will be held at Grace church. Mrs. Alice Sherfey Houston of the Rumford Chemical Company will give a demonstration of meats. The week following she will give a series of cooking demonstrations.

Mrs. David Reid brought up the matter of a tablet for the Woman's Club and the Domestic Science Round Table to be placed in the proposed Duncan memorial building. Miss Marian Fairbank, regent of the D. A. R., then spoke of the plan outlined for securing the Governor Duncan residence for a memorial. The president appointed a committee to confer with a like committee from the Woman's Club.

Refreshments were served, the hostess committee being composed of Mrs. John Buckley, chairman, Mrs. A. L. Adams, Miss Mayme Allison, Mrs. W. W. Anderson, Mrs. Byron Armstrong, Mrs. William Arnold, Mrs. Charles Adams, Mrs. Harry Benson, Mrs. F. E. Bergschneider, Miss Louella Blackburn, Mrs. Fred Bolton, Mrs. G. R. Bradley, Mrs. T. H. ### SEEK FACTS ABOUT DISABLED SOLDIERS

Mayor Crabtree recently received a communication from the federal board of vocational education asking for local information about any veteran of the world war who suffered a disability resulting in a handicap, which will require vocational re-education to overcome it.

Under the law every veteran who has sustained such disability is entitled to vocational training and the federal board is anxious to get in touch with any such persons. If any citizen of Jacksonville knows of a soldier in this class, the mayor will be glad to communicate the name and address to the federal board. If any citizen desires to take the matter up directly with the board, the address is 200 New Jersey Avenue, N. W. Washington.

### ATTENDED TWO EVENTS

Thomas Duffner has enjoyed the past week. He went to Springfield as one of the reception committee for President DeValera and took in the festivities of that occasion and then went down to St. Louis and through a friend secured a ticket to the banquet tendered Cardinal Mercier by the St. Louis Chamber of Commerce. It was at the Hotel Statler and fifteen hundred sat down at the feast. Great honor was paid the distinguished guest who made an eloquent address which was loudly applauded. He made a fine impression while there. By this time the worthy cardinal must be satisfied that the U. S. has a pretty warm regard for him and his country.

Hon. Thomas J. Condon will speak at court house, 2:30, Sunday afternoon on Jewish relief work. No solicitation. Everyone welcome. All workers earnestly urged to attend.

### HARVEST FESTIVAL DEMONSTRATION

On Monday evening, October 27, The Salvation Army will give a Harvest Festival Demonstration in the form of a four act play, entitled "Ruth, an Eastern Wedding."

### LETTER FROM JOHN W. MELTON

M. D. Rapp of this city has received a letter from John W. Melton, now a resident of the soldiers' home in California, and from it some extracts are given.

You speak of the dry season. Did the rain come soon enough for farmers to sow fall wheat? I came to the home the 29th of March last and we have had but one rain since, about two inches.

You speak of Capt. Swales being sick in Chicago. I hope he is better by this time. In the last few years so many old friends in and around Jacksonville have died. I did not know the old soldier who was killed by the train but have heard his name about Woodson.

I thank the class for the class picture sent me. I can recognize most of them. Give my kindest regards to the teacher, Brother Smith and all the class. How many are there now? I am sending you a booklet of the views of the home. I never before saw such beautiful grounds cultivated so lovingly. Our home has its own postoffice. Sawtelle is 15 miles from Los Angeles and they are trying to get it into the city. At the home they vary the meals from week to week and I think they are first rate.

I met George Wilson at church. You remember he used to be an evangelist and held a revival meeting at Centenary some years ago; also at Brooklyn. He was chaplain at this home years ago and now lives 14 miles distant. I was very glad to meet him.

My son Jim leased his farm for five years and is working on a peach farm of 200 acres cutting and drying peaches and Frances is with a lady friend in Berkeley, Cal. Her Paris music teacher is in San Francisco and she is taking a few lessons from her. She thinks of going to Tokio, Japan.

where she was for two years. They want her to take charge of the music in the Canadian schools. The U. S. climate doesn't agree with her and she has no reserve strength.

John Boston and son Clarence called to see me in August. I was glad to see them.

Hon. Thomas J. Condon will speak at court house, 2:30, Sunday afternoon on Jewish relief work. No solicitation. Everyone welcome. All workers earnestly urged to attend.

## WHITE HALL HAD CHANCE TO GET ELI BRIDGE PLANT

President Sullivan Asked Business  
 Men to Make Him Proposition  
 —Made Unfavorable Report—  
 News Notes.

White Hall, Oct. 24.—W. E. Sullivan of Jacksonville, president of the Eli Bridge Co., was in town Thursday. In the lobby of the First National Bank he was accosted by a prominent White Hall citizen with the inquiry as to why he had not brought his plant to White Hall from Roodhouse instead of moving it to Jacksonville.

The writer overheard this exchange of words, and recalled at once the efforts made by Mr. Sullivan in the past to interest White Hall in the location of the plant here.

As far back as 1912 the matter of a new location was being entertained by the Eli Bridge Company, and Mr. Sullivan made a definite proposal in writing to bring the plant to White Hall for certain reasonable considerations. Mr. Sullivan had a natural preference for White Hall in the event of the plant leaving Roodhouse, and he patiently awaited a visit by a White Hall committee and their report before casting elsewhere.

**Report Unfavorable.**  
 This report did not favor Mr. Sullivan's proposition. It was made up by White Hall business men who evidently were not aware as Mr. Sullivan has since remarked on several occasions, of the great possibilities of the amusement business and the riding device game. It was right here that White Hall lost its opportunity of becoming identified with the amusement world through securing the Eli Bridge Co. It was about this time that Mr. Sullivan secured the services of an adver-

tising expert from New York and brought him to Roodhouse for no other purpose than to make "Big Eli Wheels" better known throughout the world.

A house organ was established under the direction of this advertising expert, called "The Optimist," and this little monthly publication continues to be issued regularly and forwarded to all interested in riding devices all over the world. After the first year of persistent and consistent publicity the Eli Bridge Company decided that the right kind of publicity is an asset to any business community, and they had reasons for so thinking. It had been demonstrated that the advertising department, while conducted at heavy expense, had placed the product of the Eli Bridge Company—Ferris Wheels—at the forefront among amusement devices of all descriptions.

The result has been that the appropriations have been adequate annually to provide for continuous advertising that has maintained the first place attained by "Big Eli Wheels" after the first year of advertising experience. This meant more business, and more business meant larger and better quarters that the location at Roodhouse did not afford.

**Jacksonville Lands Plum**  
 Jacksonville made overtures among other cities for the enterprise, and Jacksonville landed the prize that now White Hall regrets not having secured. Building operations have been carried on during the present year on the structures that are to accommodate the Eli Bridge Company in Jacksonville, and beginning with the first of the present month the last vista of operations ceased at the old Roodhouse plant, and the new plant in Jacksonville will be in complete running order in a few weeks. It is located on Case avenue, near the Wabash passenger station, and visitors

from White Hall will be shown every consideration and they will see that the original promises of Mr. Sullivan to White Hall were transferred to Jacksonville, and that these promises are left in the background in comparison with the real accomplishments and magnitude of the enterprise of today. Mr. Sullivan has made good his promises to Jacksonville, and the new institution is one in which the people of Jacksonville are taking pride and interest in what is a distinct loss to both Roodhouse and White Hall.

**White Hall News Notes.**

Henry T. McClay, whose death occurred in Passavant hospital at Jacksonville at 8 o'clock on the evening of the 22nd, was a brother of George E. McClay of White Hall. He had resided at Mountain Grove, Mo., for the past fifteen years, and was an occasional visitor here. While on a visit last week he was taken ill, and it was decided to take him to the hospital for treatment, death following an operation. His age was 73 years and he was the oldest of the living brothers, the eldest being the late A. L. McClay, who died in 1912. The remains were brought to White Hall Thursday and placed in the Fox undertaking rooms until the hour set for the funeral at 2 p. m. Saturday and the remains will be laid beside those of his eldest brother, A. L. McClay, in the White Hall cemetery. Another brother, Ernest A. McClay, resides at Woodstock, Vermont, and he is here. A. L. McClay founded the McClay orchard, located northwest of White Hall, which is today the largest individual apple orchard in the world, now owned by a son of the founder, A. L. McClay Jr.

Dr. A. C. Rich has sold his residence on Bridgeport street for \$6,500, the purchaser being Mrs. A. C. Griswold, who will move to town from west of the city.

The Boy Scouts have arranged a lecture course for this winter, and the first number by the Columbian sextette, was given this week. It is declared to be the best thing of the kind that has visited White Hall in connection with a lyceum or chautauqua, many of the patrons saying that they had their money's worth for their season ticket. The next attraction will appear in December. It will be a lecture by Dr. Henry B. Burns of Des Moines, Iowa. The talent is furnished by the Brown Lyceum Bureau of St. Louis.

Staples & Thompson display a bowl of sugar which they offer to trade for a 1919 model Ford automobile which must be equipped with a starter.

The representatives of the proposed shirt factory visited White Hall again today to close the deal for the location of the enterprise here. The details will be announced later.

Mr. and Mrs. Harvey Dewell here from Moberly, Mo., a few days this week.

## GETS 28 EGGS A DAY NOW, FROM 34 HENS

Chas. C. White, Well-Known Breeder,  
 Tells How. Costs Nothing to Try.

"I gave Don Sung to 34 utility Buff Orpingtons and the egg yield increased from 7 to 28 eggs a day. Don Sung is a wonder and I am now giving it to all my hens regularly."

Chas. C. White, Manager Cherry Hill Farm, Flackville, Ind.

Mr. White is the well known breeder and exhibitor. He wrote the above letter during bitter cold weather in December, after his test had shown a gain of 21 eggs a day from 34 hens. We will make you the same offer we made him. Here it is:

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your drugist or poultry remedy dealer or send 50 cents for a package by mail prepaid Burrell-Dugger Co., 284 Columbia bldg., Indianapolis, Ind.

Finishing in the money at the World's Series Sweepstakes at Cincinnati, Oct. 11, Stein drove the entire 250 miles without a stop for tire changing. His car was the Oldfield Special and he averaged 95 miles per hour.

For many years Stein rode beside the "Master Driver" in many an important race and now as a driver he is a great Oldfield booster. "My car was the only one in the race to finish without a tire change," declared Stein. # Jewish War Relief Campaign

—Share Your Loaf—

*“Life for Those in the Shadow of Death”*

## The Humanitarian Movement To Raise Morgan County's Quota of \$18,000 Commences Tomorrow

The opening gun of the \$1,500,000 campaign for the American Jewish Relief Committee will be fired today, when ministers of all denominations will make appeals to church-goers all over the state to “make their dollars buck the bread line of eastern Europe,” where six millions of people are dependent upon the charity of this country for their existence.

At sun-up tomorrow, county, city, town and township committees will begin the intensive work of raising Illinois'

quota of the \$35,000,000 relief fund, which means the saving of hundreds of thousands of lives in the war-stricken countries of eastern Europe.

Governor Lowden has appealed to the people of Illinois urging humanity to do its part in helping the Jews to relieve their perishing brethren in the east. In his proclamation issued at Springfield, Governor Lowden said in part:

“In the Great War just closed our Jewish citizens have taken a conspicuous part. They have given their lives on the battlefield. They have been among the most devoted workers at home. Not Jew alone, but Jew and Gentile alike have been the beneficiaries of their immense contribution to the winning of the war. They have measured up to their full duty to the war for humanity. Now, let humanity do its part in helping to relieve their perishing brethren in the East.”

***Starving, shivering, dying women and children will live  
or die by your decision. What shall your answer be?***

Six million Jews in Eastern Europe — innocent victims of war—are in direct need. During recent years, contending armies have crossed and recrossed, at 12 different times the lands in which they dwell. The men who were the support of these millions have been largely consumed by the armies of Eastern Europe, and now hundreds of thousands of

innocent women and children face disease and starvation unless help, and help in abundance, speedily comes. The tragedy cannot be averted by the Jews alone. The number of their dying and suffering brethren is too large. Almost half the entire Jewish race have become the helpless victims of war. For the first time, as I believe, in their history, the Jews

are asking non-Jews to help care for the needy of their race. They have always been distinguished for the thoroughness and open-handedness with which they have provided for their own. At last, however, a demand is made upon them which they cannot meet. The burden is too great. Its magnitude is such that humanity at large must take it up.

This is the first general appeal ever made by this organization. Morgan County's quota is but \$18,000, and Morgan County never failed to go “Over the Top” in a worthy cause—we don't believe it ever will.

During the coming week voluntary solicitors will call upon you. Give what you can to this most humanitarian and worthy cause. Remembering that “It's not what you have done,” but, “What will you do now,” that will bring relief.

The hard porous plates manufactured by a special process enables us to build into the MAC-LAR Master Battery three advantages never before combined in the same battery.

1—Extra hard plates—insure long life.  
2—25 per cent extra capacity for the same plate area and a higher momentary discharge rate than any soft plate battery.

3—Unusual recharging efficiency.

I can take care of all your battery troubles. Give me a call.

## KEY MAN FORCED TO QUIT HIS JOB

Lay Helpless in Bed When He Got Tanlac—Gains 25 Pounds and Is Now Back at Work.

"When I took my first dose of Tanlac I was flat on my back in bed with my wife and friends had lost all hope. Five days afterwards I was out of the bed, and now, since taking six bottles, I'm back at work, feeling as well as I ever felt in my life and I've gained twenty-five pounds," was the truly remarkable statement made a few days ago by A. W. Ruggles, a well known telegraph operator, living at South Spring street, Springfield, Ill.

"I know it's hard for people to believe this," he continued, "but it's the honest truth. My wife and all my neighbors as well as a host of friends will testify to what I say and I am willing to go before a notary and make an affidavit to this effect.

"About ten years ago I began to suffer with indigestion and stomach trouble. My appetite began to fail me and no matter how many tempting dishes my wife would fix up, I just had to force myself to eat. This, of course, weakened me terribly and before long I realized I was breaking down under the strain of my trying work at the telegraph key. My nerves were all torn to pieces and it was only by main force that I stuck by my key in the afternoons when the work began to pile up.

"Nobody will ever know how I suffered unless they have been through the same thing. Every time I ate anything I would have terrible pains and cramps around my stomach afterwards. Gas would form and press against my heart until I would get right dizzy and several times I actually fainted. My work was simply torment to me. I would break out with cold perspiration at the least little excitement, and in a few moments would be so weak I could hardly sit up. I couldn't sleep to do any good and kept going down until I had lost twenty-five pounds.

"Finally, I just had to quit work altogether and went home to be a nervous wreck. I had lain there helpless for six weeks and everybody who saw me thought I'd never get up again, when my wife got some Tanlac and I took it, and, as I said before, in five days I was out of that bed.

"Well, sir, I'll admit I was surprised, but my friends who had not been allowed to see me a few days before, were dumfounded to see me up and looking so fine. I kept on taking Tanlac until now I am back at work and feel as well as I ever felt in my life. I eat anything I want, enjoy every mouthful, and nothing hurts me at all. The pains have all disappeared and I sleep sound all night long. I enjoy my work just like I used to years ago and I feel so thankful for what Tanlac has done for me that I would like every person in the world who is suffering like I was to know about it."

Tanlac is sold in Jacksonville by Coover & Shreve, in Meredosa by Mr. R. B. Field, in Murrayville by M. E. Gilbert, in Waverly by the Wyle Drug Co., in Woodstock by the Hoy Pharmacy and in Chapin by Jno Onken & Bro.—Adv.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; his magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful hints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and vigorator as told on bottle.

## UNION NORTH SCHOOL BEAUTIFULLY LOCATED

Has Spacious Playground and Up-to-Date Building—Pupils Show Great Interest in Foreign Lands

Beautiful for situation is Union North schoolhouse about five miles northwest of the city. Of course comparisons are odious but it is safe to say no better or more attractive playground is to be found in the county and the writer can hardly call to mind now one which will fully equal it. It is spacious in size, lies on a hill in a commanding position and is well supplied with noble shade trees of various woods, the whole making a plot well nigh ideal. The house is also up-to-date with light, heat, ventilation and other requisites for carrying on a successful work. It is supplied with a good set of maps, library, unabridged dictionary, organ, a few pictures, good furniture and in general has a thrifty appearance. The thing most needed is more pictures; portraits of our great men and a few landscapes and these the directors will doubtless supply or a few entertainments would supply the needed funds.

The pupils average rather small but there are a few larger in size and all were polite and well behaved and it was a pleasure to visit them. They showed up very well in the matter of answering questions and when it came to asking for information they did quite well also when it is remembered that there are so few pupils larger than little tots.

Miss Mary F. Burke, the teacher, is much interested in her work and has the good will of her pupils at heart and is esteemed and respected by them.

The directors are Messrs. Richard Leake, Edward Patterson and Louis Meyer, all well known gentlemen who may be depended on to do the best that is in them.

The pupils are: Mary Patterson, Helen Leake, Bernice Leake, Clyde Baptist, Mabel McDaniels, Marietta Hall, Raymond Menge, Harold Patterson, Francis Baptist, Deloris Meyer, Helen Patterson, Mary Meyer, Edna Patterson, Eloise Patterson, Helen Meyer, Harold Patterson, Irene Baptist, Claude Smith, Earl Johnson.

# The New Motor Car

## The Greatest Improvement In Riding Comfort Since The Introduction of Pneumatic Tires

THERE is a brand new type of car. It solves the problem which has baffled automotive engineers—how to combine riding comfort with light weight and economy.

Our new Three-Point Cantilever springs make this possible.

These are the first springs of their kind and they are made of chrome vanadium steel. They are exclusive with Overland.

Because of these springs, Overland 4 combines the riding qualities of large heavy, expensive, long wheelbase cars, together with the advantages and economy of small light cars.

With 100-inch wheelbase, Overland 4 has the luxurious riding ease of 130-inch Springbase.

The exclusive, Three-Point Cantilever Springs cushion the car so that it rides well on all roads; they reduce choppy rebounds and side swaying, protect the car from road shocks and prolong its life, minimize twisting or racking of frame and body, enable the car to hold the road better.

The car and passengers ride smoothly as though floating, free from road shocks that the springs ward off.

But this new riding comfort, possible only with these Three-Point Cantilever Springs, is but one of the advantages of Overland 4.

Its light weight makes possible great economy of gasoline and tires.

High quality materials insure durability. All vital parts of the

front axle and steering gear and all highly stressed gears and shafts for driving the car are made of alloy steel.

The equipment list of Overland 4 is high grade, including Auto-Lite Starter and Lighting System—Electric Horn—Marshall Divan Upholstery—Springs—Demountable Rims—Three Speed Transmission—Slanting Rain Vision Windshield—Tillotson Carburetor—U. S. L. Batteries and many other high quality conveniences.

In every respect Overland 4 is a quality car. The body is all steel, all enamel, the brightest, hardest, most lasting finish.

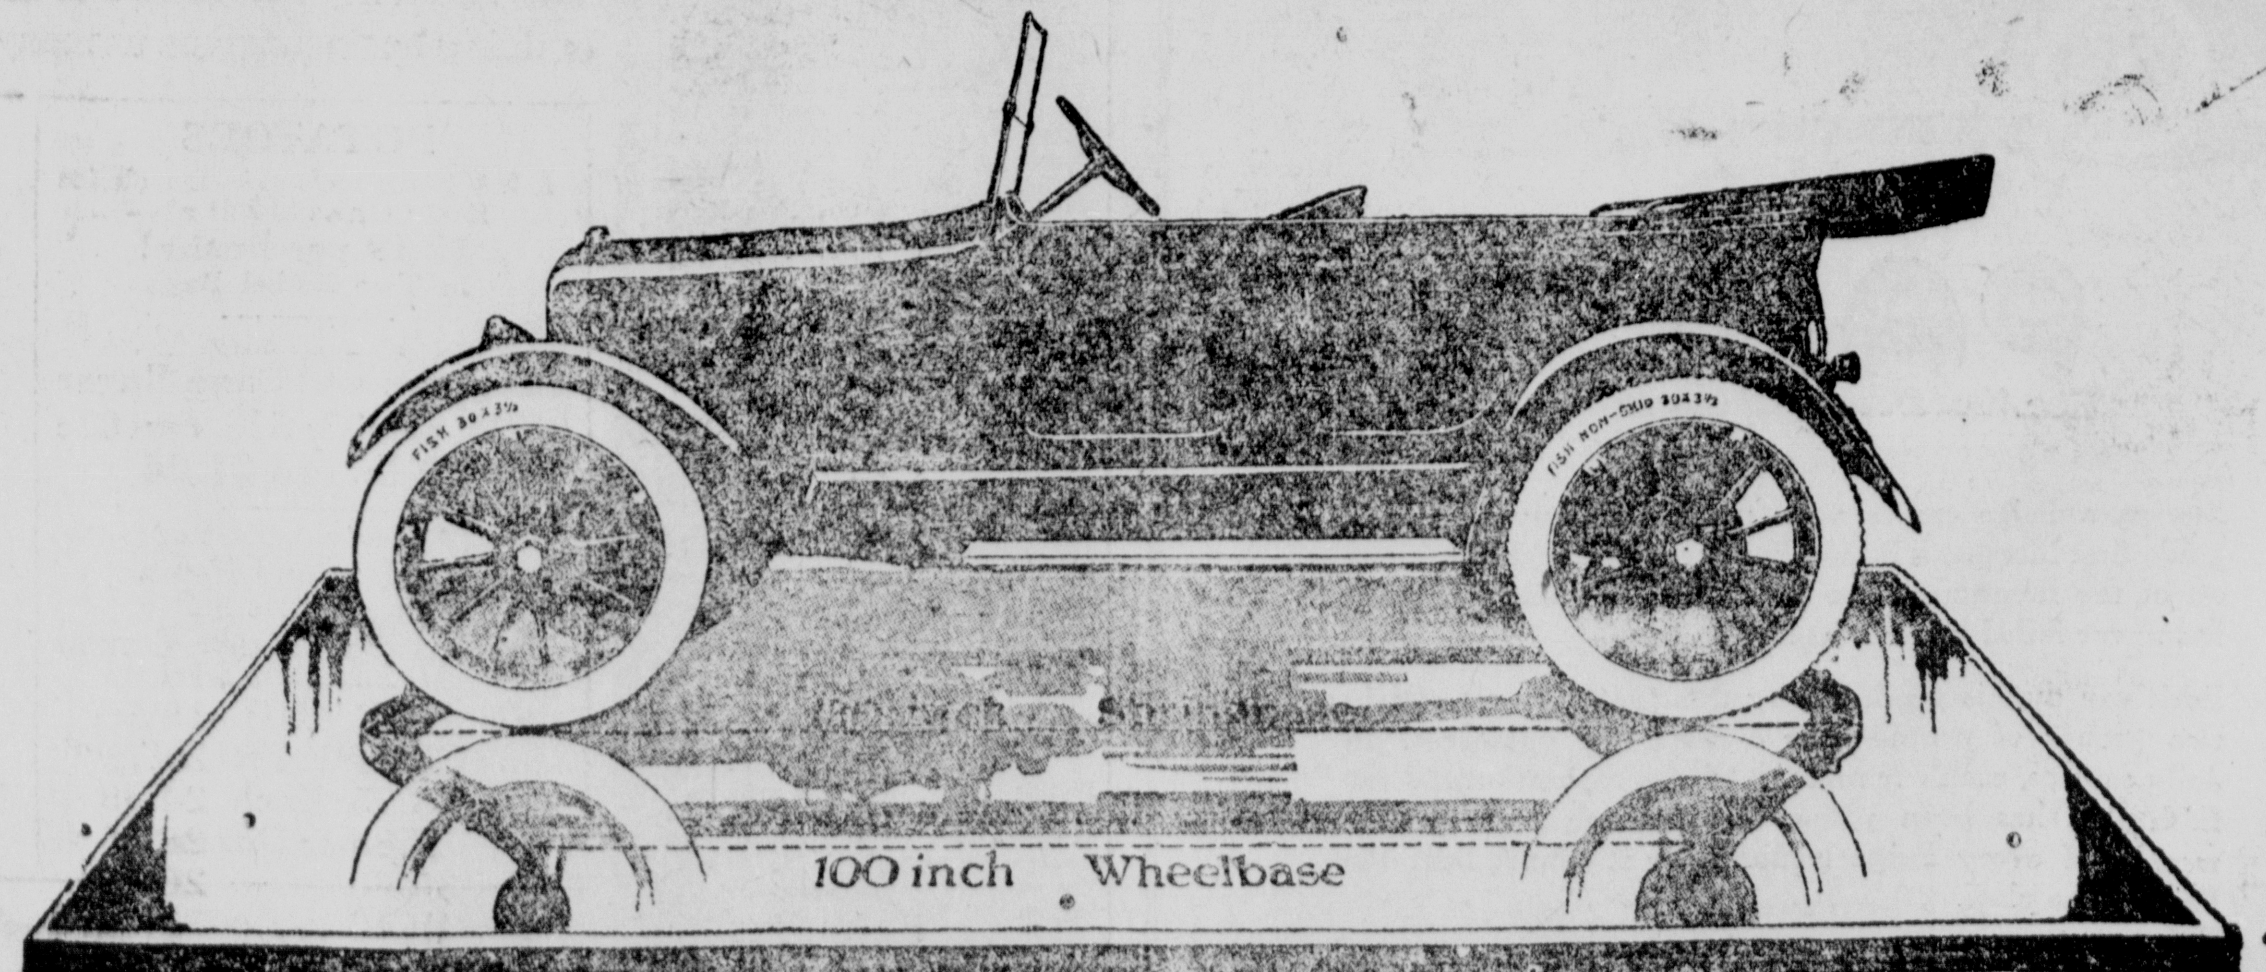

Overland 4 has been tested for two years and more than 250,000

miles over the Rocky Mountains, prairies, through deep mud and scorching deserts—through quick sharp climatic changes. As a result of these tests we were able to judge the car's performance under every condition and to perfect it before offering it to the public.

There is no previous car of any size or price to adequately compare with the character of service Overland 4 introduces.

The farther you ride in it the more you will appreciate it. Come in, see the car and ask for booklet. The demand will be greater than the supply for a long time.

Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375. Prices f. o. b. Toledo.

OHIO TOO MUCH  
FOR MICHIGAN TEAMVost's Men Outplayed in Every  
Department of Game—Harley  
Shining Star of Battle.

Ann Arbor, Mich., Oct. 25.—Outplayed in practically every department of the game Michigan went down to defeat before Ohio State, 13 to 3, this afternoon for the first time in fifteen years. The defeat, it is generally conceded, eliminates Michigan as a contender for the western conference football championship.

The work of Captain Harley, Quarterback Stinchcomb and Flowers, the visitors' right end man featured the game.

Several times Harley tore thru the Michigan line for good gains. In the third period he circled the Michigan right end for 35 yards and a touchdown, and on the few occasions that Michigan threatened his goal, he punted out of danger.

In the opening period when Cliff Sparks, the Michigan quarterback, attempted to punt, the kick was blocked and Flowers fell on it for a touchdown. Harley kicked goal.

Michigan's only score was the result of a pretty drop kick by Sparks in the second period.

The lineup:

Eleven Too Much For Zuppke's  
Men.

Urbana, Ill., Oct. 25.—Relying principally on old style football and making huge gains with line plays, Wisconsin's superb eleven defeated Illinois on Illinois field this afternoon, 14 to 10. Illinois was the first to score, Reichle booting a goal from the field in the first period from the Wisconsin fifteen yard line. At the start of the second half Illinois carried the ball to the Badgers one yard line but the Crimson braced and took the oval on downs. A steady march to the Illinois goal started with Jacobi and Sundt forcing their way thru the crumbling Illinois line. Jacobi carried the ball over and Davey kicked goal.

The Wisconsin eleven scored again in the final period when the Illinois line again gave way for a march to the goal. A short pass directly over the line enabled Weston to score.

Illinois gave the Badgers a scare in this period when Fletcher nabbed a pass from Slocum, Illinois substitute end, and ran 70 yards for a touchdown. Fletcher also kicked goal.

### DON'T BE A "MISERY-FACTORY"

Headaches, Bilious Spells, Colds and Constipation with "Cascarets"—Ideal Physic!

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or merely shocking your insides every few days with Calomel, Salts, Oil or violent Pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels which is now keeping you in constant misery. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.

### NAME "BAYER" ON GENUINE ASPIRIN

"Bayer Cross" on Aspirin like "Sterling" on silver.

"Bayer Tablets of Aspirin," Toothache, Earache, Neuralgia, marked with the safety "Bayer Cross," can be taken without fear because you are getting the true, world-famous Aspirin, prescribed by physicians for over 18 years. Always buy an unbroken pack—mark of Bayer Manufacture of which contains proper directions to safely relieve Colds, Headache, acid.

### The Cause of Disease

Modern Science, which is always studying cause and effect, has demonstrated that disease in adults and improper development and sickness in children are the results of faulty nerve action due to spinal defects. The bones of the spine press on the nerves and interfere with the distribution of energy throughout the body. A correction of these defects restores uninterrupted nerve force and invariably results in the return of health.

### Chiropractic (KI-RO-PRAK-TIC)

is the science that has demonstrated this connection between disease and defective spines. For years, and in the face of bitter criticism and strong opposition, Chiropractors have been adjusting the defects in spines to remove the cause of disease. Wonderful results have been obtained, even in cases that were considered incurable. Everywhere there are people who have been greatly helped by

### CHIROPRACTIC THE BETTER WAY TO HEALTH

Those who are not in health, who are not strong and well; who are nervous; fagged-out; inefficient; and who feel they need to be recharged with vital energy, will no doubt find relief through spinal adjustments. You owe it to yourself, your family and your friends to investigate Chiropractic.

### Bake With Heat Now Lost Up the Chimney

This remarkable range takes advantage of Nature's law for heat to rise and thus the High Oven saves and bakes with the "waste or chimney heat" of the common type range. Note that the two oven flues start at the place where the smoke flue is connected to the chimney on other ranges. Why let half your fuel money fly up the chimney? You can easily save 1-3 to 1-2 in fuel bills and do away with one of your heating stoves with the efficient

### CORN SHOWS

**FURTHER WEAKNESS**  
CHICAGO, Oct. 25.—Un-  
certainty of the industrial situation  
tended to halt business today in  
the corn market, and weaken  
prices. The close was unsettled  
½¢ to 1¼¢ net lower with De-  
cember \$1.25½¢ to \$1.25½¢; oats  
finished unchanged to ½¢ down  
and provisions unchanged to 5¢  
decline.

Dealings in the corn pit were  
chiefly local. Considerable seat-  
tered selling however, took place  
on the part of scattered holders  
who wished to be rid of any risk  
from unfavorable developments  
over Sunday. At the same time  
country offerings to arrive were  
not large and reports indicated  
that the farmers in important  
sections of Illinois and other  
states showed a general disposi-  
tion not to sell at less than \$1.25  
a bushel. The May delivery tho-  
was weaker than the December  
because of the fact that at present  
the movement of corn is likely to  
be curtailed by the railroad ad-  
ministration rule making in-  
dividual permits a necessity for  
all shipments.

Oats were nearly stagnant, ex-  
cept sales of 25,000 bushels to  
New England. Price changes  
kept within unusually narrow  
limits.  
Firmness in the hog market  
helped to steady provisions. Be-  
sides the recent decline of prices  
was said to have increased the  
demand for meats.

Adopt Co-operative Method to Increase Superiority  
of County's Hog Product—Claim Made That  
Greater Financial Benefit Accrues from Use  
of Pure Bred Sires—Aim to Make Mor-  
gan County Second to None—Well  
Known County Men Back of  
Movement.

### First Combination Hog Sale Scheduled Wednesday, Oct. 29, at 1 p.m. Tony Franks' Barn, N. Main St.

That financial benefit will result in the livestock business from the use of pure bred sires has been so often and so clearly demonstrated that any further evidence tending to prove that fact is superfluous.

Many men who breed and feed hogs for the market carry this same principle further, and realize greater profits by using only pure bred dams as well as sires from which to breed for the market. The heritage of purebred hogs makes them easier to handle, quicker to grow, and cheaper to fatten into marketable condition than grades, and the cheaper and quicker a hog can be put into marketable shape, the more profit he returns the feeder.

An opportunity to purchase breeding stock, with this heritage of quick growth and easy feeding qualities, will be given in Jacksonville next Wednesday, Oct. 29, at the Tony Franks' barn, on North Main Street, at 1:00 p. m., when the Morgan County Breeders' Association will hold their first combination sale of pure bred hogs.

If you need a boar, if you need brood sows, if you have a herd of grade sows that you wish to improve, if you are thinking of starting in purebred hog business, if you want to make more money out of hogs, come out to this sale determined to take your needs back home with you.

Morgan County sends good hogs to the market, but it would help every feeder in the county as well as every bank and business house, if we could build up such a high standard among our hog men that when a load of our hogs reached the market, they are spotted as "Morgan County Hogs". When any locality gets that kind of reputation for any product, that locality's product outstrips competition and chooses rather than seeks its buyers.

We are not expecting any skyrocket prices in this sale. We are entering good serviceable individuals, and would like to have you come out and appraise them at what they are worth to you.

31 Durocs, 22 Polands and 2 Berkshires will be offered. Get a catalogue at the County Agent's office in the court house, or at the barn sale day.

AND FEEDERS ASSOCIATION

## JACKSONVILLE HIGH SWAMPS BEARDSTOWN

Final Score 60 to 0—Beardstown Was Outplayed at All Points—Jacksonville Revives Outside Kick.

Jacksonville swamped Beardstown high on Illinois field Saturday afternoon by a score of 60 to 0. Had the going been good Jacksonville probably would have scored a hundred or more points. The locals presented a versatile attack that for the most part completely bewildered the visitors. Among other things Coach Hufford's men revived the outside kick, the old play with which the University of Illinois beat Iowa a week ago Saturday.

Six times Jacksonville used the outside kick and five times they put it across. This coupled with some excellent forward passing line plays and end runs enabled Jacksonville to gain consistently throughout the entire game.

On the other hand Beardstown was unable to make any headway against the Jacksonville defense and only three times were they able to make first down. They got away with one short forward pass. Paris played a good defensive game for Beardstown and Goodell and Kupfer were the only ones able to make even a small dent in the local line.

For Jacksonville, Hunt, Molohon, Cockin and Green tore great holes in the Beardstown line and ran the ends almost at will. Lucas and Ramsdell were equally successful in grabbing forward passes out of the air for long gains, Lucas carrying four of them over for touchdowns.

Jacksonville showed a wonderfully improved team since her last local appearance and the men in the line opened up holes for their own runners and plugged them upon the opposition. It would be impossible to name individuals in the Jacksonville line, suffice it to say that all of the men were on their toes all the time and played stellar football.

**First Period.**  
Jacksonville kicked to Beardstown and soon forced them to kick. Molohon soon tried a place kick which fouled and Beardstown put the ball in scrimmage on the 20 yard line. Jacksonville was making first down consistently when the ball was lost on a fumble.

Beardstown was unable to gain and kicked. After a few line plays, Green passed to Hunt 15 yards for a touchdown and Molohon kicked goal. Score, Jacksonville 14; Beardstown 0. The period ended with the ball in Jacksonville's possession.

**Second Period.**  
After Jacksonville had made first down she was penalized for being offside. By a series of rushes the locals carried the ball within striking distance and Green passed to Lucas for a touchdown. Molohon kicked goal. Score, Jacksonville 21; Beardstown 0. Just before the end of the period Beardstown held and took the ball.

**Third Period.**  
Beardstown kicked to Jacksonville and the locals carried the ball down the field by line plays and end runs. Green passed to Lucas, who carried the ball over and Molohon kicked goal. Score, Jacksonville 28; Beardstown 0. The period ended with the ball in Jacksonville's possession.

**Fourth Period.**  
Jacksonville kicked to Beardstown and soon forced her to kick. After making a first down, Jacksonville tried a forward pass and Beardstown intercepted it and took the ball. After advancing the ball 25 yards, Jacksonville lost the ball on downs.

Beardstown was held for downs but after making two first downs Jacksonville lost the ball on a fumble and Beardstown had possession of it at the close of the period.

**Fifth Period.**  
Beardstown was forced to kick and Jacksonville marched down the field five to ten yards at a time and Molohon carried the ball over, but fumbled behind the goal line and Beardstown recovered the ball and put it in play on the 20 yard line.

Beardstown was forced to kick and Hunt and Molohon each made a first down and on the third play Molohon went over for a touchdown, but failed to kick goal. Score, Jacksonville 34; Beardstown 0.

Beardstown again kicked off. Jacksonville carried the ball straight down the field and Hunt went thru for a touchdown. Molohon kicked goal. Score, Jacksonville 41; Beardstown 0.

Molohon made an outside kick and recovered the ball. Green and Molohon made two first downs and Green went over for a touchdown on the third try. Molohon kicked goal. Score, Jacksonville 48; Beardstown 0.

Molohon again worked the outside kick and it was Jacksonville's ball. After making a first down, Green passed to Lucas who ran 25 yards for a touchdown. Molohon missed the goal. Score, Jacksonville 54; Beardstown 0.

For the third time Molohon worked the outside kick and Jacksonville got the ball. Hunt made 25 yards on an end run and then Kreen again passed to Lucas for a touchdown. Molohon failed at the goal and the score was Jacksonville 60; Beardstown 0. Jacksonville again kicked off and the ball was in Beardstown's possession when the final whistle blew.

The line-up:  
Jacksonville: Ramsdell, R. Arter, Bray, Smith, Reid.  
Beardstown: Paris, Anderson, Alford, Tabler, Perry.

Gard Lucas, Hunt, Cockin, Green, Molohon, Referee—Julius, Indiana University. Umpire—Larson, Moline High. Headlinesman—Hansmeyer, Beardstown. Timers—Hull, Jacksonville; Hagener, Beardstown.

# Pathe Pathephone

Acknowledged now to be the world's most perfect invention for the faithful reproduction of the voice, and all instruments.

### Pathe Facts

The Pathephone not only plays the wonderful Pathe Discs, comprising the greatest number of musical selections recorded in every musical center of the world, but it is also equipped so that other disc records may be played perfectly. In the Pathe Discs the Sound Waves are recorded on the bottom of the record grooves. A permanent, highly polished, smooth, round genuine Sapphire is used to gather them from forty points of constant contact between the Sapphire and the Disc, conducting the vibrations from the latter to the Sound Chamber, and doing away with the necessity of constantly changing needles—both for the protection of the disc and to secure the desired tone results.

### An Expert's Opinion

In the Scientific American, issue of November 13, 1915, there is a highly instructive article by John B. Taylor, of Schenectady, N. Y., who has made a microscopic study of disc records. He states:

"All speech and all music are simple from a mechanical standpoint, and therefore capable of well-nigh perfect transmission by telephone, or of nearly perfect recording, preserving and reproducing by phonograph."

### Comparative Reproduction

Interesting comparisons of the various methods of reproduction of sound and of the various discs in use emphasize the superiority of the Pathe Sapphire Ball for duplicating the actual renditions of the artists. To have proper "tone rendering," according to the article in the Scientific American, "the stylus or needle must fit and fill the slot exactly; if too small, it will be thrown from side to side, giving false

### Pathe Facts

tones; if too big, it will give trouble, jamming and causing excessive wear of the record."

Never in the world's history have men contributed so much keen, pleasure to the people of every nation have the Pathe Brothers, of France, world-wide reputation is well established through their inventive genius in perfecting the Pathephone, the Pathe Discs, the Moving Pictures. For over twenty years inventors and manufacturers have been trying to produce a perfect instrument that would render a life-like reproduction of voice and instrument. But remained for the Pathe Freres to accomplish this, and bring into being the Pathephone and Pathe Discs.

### Master Reproduction

Listening to the marvelous fidelity of the soft vibrations of the violin, the melody of the orchestra or band, and the voice modulation of the great artists rendered by the Pathephone, you realize you are hearing musical masterpieces reproduced in all their purity, strength, and detail of technique. Music lovers everywhere have been so impressed with the natural performance of the Pathephone that they all agree it should be called the actual duplication of the voices of the artists, for in "reproduction" some tone qualities are bound to be lost. As rendered by the Pathephone, not a single delicate tone-shade is lost—not an overtone, not even the inspiriting thrill of the artist.

The Pathephone is equipped with perfect Tone Control, suiting every one of the owner's desires, so that they add their own interpretation to the tune, shading and expression of any situation.

**\$45.00 to \$200**  
On Terms to Suit

The Pathe Sound-Box, which is a microphonic vibrator, sends forth the pulsating, living tones of the original human voice or instrument, emphasizing every exquisite detail of expression and technique.

The Pathephone Cabinets, in all woods, are beautifully made and harmonize with the most artistic surroundings. They, as well as the wood Sound Chamber, the Sound Vibrator, the Motor, and the Pathe Sapphire Ball, have all been made under the careful scrutiny of experts, so that when a Pathephone is installed in a home the owner can rest assured that he has the most wonderful instrument that brains, genius and handiwork have ever produced.
